Prices do not include shipment costs and import taxes, which must be paid by the buyer.

Ramphos can be delivered without VAT payment to companies which are not situated in Croatia.

TRAINING: 3 hrs training are free of charge. Any additional hour is charged 100 EUR. For any different location other then Italy, travel and accommodation expenses will be paid by the trainee.

A full training program is also available, taking into account local regulations.

The training will only be provided to pilots which possess the qualification required by the law of the Country in which Ramphos will be used.

In countries which do not require any certification, we advise pilots without previous TRIKE experience to obtain a specific training for their safety.

It will be the buyer responsibility to register and insure Ramphos ultralight in the country in which it will be operated according to the local regulations.

This price list takes effect from 01-09-2018 and replaces all previous price lists issued by the producer of Ramphos, Aetos d.o.o..
